DETAILED ACTION

1. Applicant is advised that should Claim 3 be found allowable, Claim 5 will be objected to under 37 CFR 1.75 as being a substantial duplicate thereof. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

Claim Objections

2. Claim 15 is objected to because of the following informalities:

In Claim 15, should there be -- wherein -- after “claim 1”?

Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In Claim 1, "n" is not defined.

In Claim 2, "c is 0" is not supported in Claim 1.

5. Claim 1 would be allowable if rewritten or amended to overcome the claim objection and the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

The present invention is allowable for at least the following reason(s) over the closest reference: O'Lenick (US 5 473 038).

O'Lenick discloses a comb compound having a formula described in col. 2, lines 46-63. However, it does not teach or fairly suggest the specific ester group set forth in the present invention.

6. Claims 2-16 would be allowable if rewritten to overcome the claim objection and the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

The patentability of the instant claims is described in the previous paragraph.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kuo-Liang Peng whose telephone number is (571) 272-1091. The examiner can normally be reached on Monday-Friday from 8:30 AM to 5:00 PM.
